A CARD.—IN ORDER TO CORRECT ANY UNFAVOR able impression that ma have been produced by the publication of a pellec report, giving an account of the arrest of certain parties for carrying n gambling operations on the premises occupied by me, in company with Messrs. Meere & Mann as a saloon and circus, I would state (and the statement is surequible of the strongest proof) that the parties who ergaged the room in question, engaged it for a the purpose of opening a Daguerrean gallery therein, and was under the impression that it was to be used for such purpose. I never knew until the arrest of the parties, that any gambling apparatus was there, or that gambling was carried on at all. I have never and never will encourage any illegal or immoral practices whatever in any establishment over which I have any cost 1 and I trust that the reputation I have catablished as a law-abiding citizen during a cadence in this city of ever forty eight years, is a sufficient refutation of any scandilous reports to the contary.

CARD—IN CONSEQUENCE OF THE VARIOUS AR.

Ciclis which have recently appeared in the public prints, the Directors of the Pacific Midd Steamship Carpany deem it incumbest on them to announce that they have a subtorried any combination, with any party, for the purpose of establishing higher rates of freight and passage money between the Atlantic ports and California: nor do they confine their attention solely to their own bunness, and to the transportation of passengers and specie in the safest and chappest manner practicable. The time consumed by land carriage across the listhmus of Panama has been lengthened by the greatly increased bulk of the mails, and the measures secessary for the safestard of the specie. A remedy for this will be provided by the early completion of the Panama Railroad, and with this consequent saving of time the Directors have always anticipated a reduction in cost of freight and passage between California and Atlantic ports. By order of the Board of Directors.
